

Online registration and membership management system

ClubHub is available to clubs, schools, national sporting organizations and government bodies. It is an online computer system offering the following features:

Online club member registration – Player, parents (for youth and juniors) and other members simply login their club website to register contact details and other information into ClubHub.

Online Database – The data is stored in an online database. The club retains ownership of all their member data at all times. There is a user hierarchy, and the club's appointed administrator controls access rights for other club volunteers (such as junior and youth grade co-ordinators, and team coaches and managers) who can log-in to use the system.

Available anytime, anywhere – Access is via secure log-in from any computer with a web browser and an internet connection. So volunteers can work from the comfort of their own home on club matters, if they need to, which aids efficiency and productivity.

Online Payment – Subscriptions can be paid by credit card through a secure online payment system (plus internet banking and manual payment options are also catered for).

Payment Reconciliation – The club will have an audit trail from their bank statement to each individual player payment.

Branding – We can upload clubs' logos and colours - so that the ClubHub system appears to be an extension of each club's own website.

Team & Player management – Administrators and grade co-ordinators can log-in and create various types of member groupings (by age, sex, etc.), create teams, and view member preferences, etc.

Team Communication – Team coaches and managers, the players (and/or parents of players) can send e-mails directly from the database to other players, or to the entire team. A grade co-ordinator can e-mail everyone in their grade.

Club Communication – A club administrator can send newsletter and club notices (using web links) to every club member, or to a pre-specified group of club members.

Purchase Module – The club can sell team uniform & strips, balls, coaching courses and other items to members via the system – either when they register, or when they log-in subsequently.
